INSTALLATION GUIDANCE

KIDS basin

B&M SKU: ID10392 Idral code: 10392

Installation sequence

1. Confirm the model, outlet arrangement and fixing positions against the official drawing before starting.
2. Provide the wall support or carrier specified for the ceramic product and prepare the waste and water connections before closing the wall.
3. Position the ceramic carefully and secure it at the specified fixing points without stressing or overtightening the ceramic.
4. Connect the waste and water systems as applicable. Fit only compatible accessories and check what is supplied with the selected product.
5. Check stability, drainage and all connections for leaks before handover.

Important

The accompanying technical specification is the reference for dimensions, materials, mounting details and supplied components. Installation should be completed by a competent installer.
